

# Martin Luther Christian School Childcare

We are happy to announce the installation of a separate telephone line for the use of parents who need to call the after school care center after the school office is closed. This number should be used only if a parent will be late picking up a child. If you are unable to pick up your child by the 6:00pm closing time, please make arrangements to have another adult come for the child, in order to avoid a late pick-up fee. Call the center to give the staff that adult's name.

Please make note of the telephone number:

**609-230-2016**

The Childcare supervisor or other responsible staff member will have the telephone with them when the office is no longer staffed after hours.
